File No. 85-18

FILE HEADING.

Intimation of the first outbreak of Cholera by telegram.

From

The Sany. Comr

No. C.C. 372. Dated 7.2.19. Received 8.2.19.

Diary No. 1023	Enclos. -	Spare Copies. -	Serial No. 1.

BRIEF ABSTRACT OF LETTER.

Repeats that with a view to facilitate direction of Cholera preventive measures, ords may be issued requiring Amildars of Tks & Presidts of Mul Councils (except Bangalore & Mysore Cities) to send telegraphic information of first cases of Cholera to (1) the Dy. Comr of the Dt, (2) the Dt Sany Offr and (3) the Sany. Comr.

NOTES AND ORDERS.

1) The Sany. Comr states that it is essential that the offrs named above should be kept informed of the actual Cholera situation from day to day so that whenever a special reorganization is called for, no time is lost in providing it.

2) Submitted for ords.

11) Mr. is not clear from the Sanitary Commissioner's report whether he would have to send telegrams within a village (at appointed one after another) &c. &c., his cost will be heavy. If necessary however he is asked to send telegrams about each outbreak he will be informed when one outbreak ends & when another commences. It also happens that [illegible] appears in a village, then it stops and appears in another village a fortnight or a month after. Mr. I think on may have [illegible]

12) Mr. Nigel Nicholson writes to the Collector of Ahmednagar & other Collectors & plague may be given when [illegible] mentioned by the Sanitary Commr. Draft amended rule is submitted

Temp[y] Member

I am afraid his Asst Secretary has not caught my point. What is his meaning of 1st cases of Cholera? Is it the 1st cases that occur in a Taluq or in each village as it gets affected. Rule 6 may be considered as follows "The Collector or Dep[y] Collector on receipt of intelligence from any village shall send immediate information Telegraphic in the case of the first appearance of disease in his Taluq or sub Taluq where such facilities exist of the Medical Officer in charge of a dispensary &....."

or a proviso may be added to the rule, that ~~the first cases~~ the information of the 1st appearance of disease in his Taluq or of the 1st case of breaks out in a village after its subsidence

NOTE—Contn. sheet.

Office of the Sanitary Commissioner
with the Government of Mysore,
Bangalore, Dated the 7th February 1919.

No. S.C.372.

From

A. K. Pani, Esq., D.P.H.,
Offg.Sanitary Commissioner in Mysore,
Bangalore.

To

C. S. Balasundaram Iyer, Esq., B.A.,
Chief Secretary to the Government of Mysore,
Bangalore.

Sir,

With a view to facilitate the efficient direction of Cholera preventive measures, I have the honour to request that orders may be issued requiring Amildars of Taluks and Presidents of Municipal Councils other than in Bangalore and Mysore Cities to send telegraphic information of first cases of Cholera to (1) the Deputy Commissioner of the District (2) the District Sanitary Officer and (3) the Sanitary Commissioner. The subsequent course of the disease need not be so reported. At present it frequently happens that intimation reaches the Sanitary Department only after the disease has almost run its course or has established itself in a place with the result that the full effect of the preventive measures is not derived. Further, it is essential that the Officers named above should be kept aware of the actual Cholera situation from day to day so that whenever a special organization is called for no time is lost in providing it. The movements of the subordinate Sanitary Officials may also then be regulated to the greatest possible advantage.

2. Only first cases being required to be telegraphed the cost involved will not be considerable.

3. The proposal does not affect the existing rule requiring the Patels to give the earliest possible information of cases of Cholera.
